IAR must be submitted one of the following file formats: text or PDF.

Q1. Student Name: Tibor Ukropina

Q2. Student ID: 0961384

Q3. Associated Team Deliverable: Sprint 1

Q4. Section#, Team #: Section 2, Team 3

Q5. What were the main technical or methodological concepts and/or skills that were required to complete this team deliverable? (bulleted list is preferred):

- Beginner level proficiency with React Native
- Ability to set up coding environment for React Native Expo
- Understanding of mobile computing

Q6. What was your existing level of experience with these topics/skills before your team began working on this deliverable? (1-2 sentences):

- I had no prior experience with React Native, however, I had a smidgen of experience with React from self-learning.

Q7. Comment on your individual academic, methodological, or technical learning during this deliverable, and what additional learning may be needed to understand or be more competent with these topics in the future?

- I learned how to use expo and set up an android emulator to run the react native project on my machine
- I got more familiar with React Native to the point where I could understand the project source code
- For the future I will deepen my understanding of React and React Native to become a more effective and reliable group member

Q8. What specific contributions did you make to this team deliverable? This should include technical or project management contributions.

- I learned to set up React Native, Expo, and an Android Emulator on my native machine, then helped my group members do the same
- I worked on the test case for Logging out of the System

Q9. With whom did you collaborate for any of the above contributions (be specific)?

- For setting up the environments I worked with all five group members in a call

Q10. Comment on how well you managed your time over the time period allocated in the Course timetable to this team deliverable (i.e. the time between the prior team deliverable to this team deliverable).

- I believe I managed my time well because our goal for the week was to set up the environment and develop test cases, and our group was able to accomplish both of these goals
