Individual Accountability Report (IAR) Template

Note. Refer to the Project Manual for detailed instructions for IAR submissions.

Individual Accountability Report (IAR) Template
The following questions MUST be included and answered completely for each submitted IAR.

IAR must be submitted one of the following file formats: text or PDF.

Q1. Student Name: Ameera Atique

Q2. Student ID: 1011406

Q3. Associated Team Deliverable:

Q4. Section#2, Team #3:

Q5. What were the main technical or methodological concepts and/or skills that were required to complete this team deliverable? (bulleted list is preferred):

- Project development using Scrum Agile Development concepts

- Working with Android in proposing changes to the UI

- Doing merging on GIT

Q6. What was your existing level of experience with these topics/skills before your team began working on this deliverable? (1-2 sentences):

I got confused with certain commands to do the merging, but Sri was on call with me and taught me how to do it.

Q7. Comment on your individual academic, methodological, or technical learning during this deliverable, and what additional learning may be needed to understand or be more competent with these topics in the future?

Like last sprint, I believe my performance was a little unsatisfactory. I struggled with concentration which is why I was not as proactive as I should have been. In the future, I need to improve my focus so that I can pick concepts and contribute better alongside helping another teammate just as they have helped me, and be more competent around project development, as I wish to take this on as a career for myself.

Q8. What specific contributions did you make to this team deliverable? This should include technical or project management contributions.

I proposed changes to the applications UI, and did the merging with Sri

Q9. With whom did you collaborate for any of the above contributions (be specific)?

I collaborated with my teammates Sri and McKenzie

Q10. Comment on how well you managed your time over the time period allocated in the Course timetable to this team deliverable (i.e. the time between the prior team deliverable to this team deliverable).

Overall I have learnt to manage my time a lot better this semester than the previous ones. I have been proactive and been able to manage my time fairly well between one deliverable and the next. I have been very responsive to the team and was always punctual in meetings.
